

Complete Partnership Toolkit: Everything You Need to Get Started

Comprehensive resources to evaluate, propose, and implement medically tailored meal programs within your organization.

Our provider toolkit contains everything healthcare leaders need to build a compelling case for medically tailored meal programs. Developed with input from health system executives, medical directors, and population health managers.

What's Included:

Executive Summary Templates

- Business case presentations for C-suite approval
- Budget impact models and financial projections
- Competitive analysis and market positioning

Clinical Implementation Resources

- Provider order sets and referral criteria
- Patient education materials in multiple languages
- Outcome tracking and reporting templates

Operational Guides

- Vendor evaluation scorecards
- Contract negotiation guidelines
- Quality assurance protocols

Program Management Tools

- Project timeline templates
- Stakeholder communication plans
- Success metrics dashboards

Regulatory Support

- CMS billing and coding guidance
- State Medicaid program navigation
- Quality measure reporting assistance

This toolkit has helped over 200 healthcare organizations successfully launch medically tailored meal programs, with an average time-to-launch of just 45 days.
